

Session/Course Title: EMBA Orientation – Blue Group

Date: January 05, 2007

Instructor's Name: Stephen Hayes

Please offer specific suggestions for ways we could design the session to better meet your needs:

- Not do the session after a full day of class. It make it difficult to concentrate – maybe do it during orientation?
- Great understating of company search – how about market research – how to find efficiently.
- I don't know yet; staff seems very helpful.
- Good session, we are tired! Let you know how it was if we get assignments.
- Offer more search examples.

How could we improve our session handouts?

- If I could get exactly what you “clicked on” to get the reports I would appreciate it.
- More time to play with sites to become more familiar with databases.
- They're fine.
- Make a job tool – lpg. Version.

What could the instructor do in the future that might improve your understanding of the material?

- Very robust resource, a lot to handle through in the short time frame.
- Organized and in a short time was able to cover many areas.
- He was great in explaining thing, but I would have liked to have gone a little slower.
- More time to present.
- N/A – he was very direct, clear; hit important point; stayed focused.
- It was very concise and clear considering time available.

Additional Comments:

- Good to know who to contact.
- Lot of information. I would have liked a descriptor in our agenda in the content of this presentation before coming to the session. I thought the content was powerful.
- Very concise and informative.
