

**Session/Course Title: MS Accountancy Orientation**

**Date: January 12, 2007**

**Instructor's Name: Christian Poehlmann**

Please offer specific suggestions for ways we could design the session to better meet your needs:

- I thought there would be more training in the actual programs.

How could we improve our session handouts?

- Could probably have smaller slides (i.e. more on a paper)

What could the instructor do in the future that might improve your understanding of the material?
